Planting Intentions

Oregon

Winter wheat growers planted an estimated 820,000 acres, no change from 2010 acreage, and 8 percent higher than 2009.

Spring wheat planted acreage intentions are estimated at 170,000 acres, 21 percent increase from 2010, and 31 percent higher than 2009.

Barley planting intentions are estimated at 45,000 acres, unchanged from 2010 acreage, and up 13 percent from 2009.

Oat planted acreage intentions are estimated at 35,000 acres, down 22 percent from last year and 2009.

Field corn planted acreage for 2011 is estimated at 70,000 acres, no change from 2010 acreage, and down 17 percent from 2009.

All hay intended for harvest is estimated at 1 million acres, down 4 percent from 2010 acreage, and down 3 percent from 2009.

Dry edible bean planting intentions are estimated at 4,500 acres, down 37 percent from 2010, and down 30 percent from 2009.

Dry edible pea planting intentions are estimated at 6,000 acres, down 14 percent from 2010, and down 5 percent from 2009.

Austrian winter pea planting intentions are estimated at 2,000 acres, down 52 percent from 2010, and down 20 percent from 2009.

Sugarbeet planted acreage for 2011 is estimated at 10,000 acres, down 3 percent from 2010 and down 6 percent from 2009.

Canola growers are estimated to plant 7,000 acres, up 17 percent from 2010 and up 43 percent from 2009.

United States

Winter wheat planted for the 2011 crop is estimated at 41.2 million acres, up 10 percent from 2010 and up 1 percent from the previous estimate.

Spring wheat grower intentions are estimated at 14.4 million acres, up 5 percent from last year.

Barley planting intentions are estimated at 3 million acres, up 3 percent compared to 2010.

Oat planted acreage intentions are down 10 percent at 2.8 million acres. If realized, this will be the lowest United States total on record.

Field corn planted acreage intentions are estimated at 92.2 million acres, up 5 percent from 2010 and 7 percent higher than in 2009. If realized, this will be the second highest planted acreage in the United States since 1944.

All hay intended for harvest is estimated at 59 million acres, down 1 percent. If realized, this will be the fourth lowest harvested acreage on record.

Dry edible bean planting intentions total 1.3 million acres, down 32 percent from last year.

Dry edible pea planting intentions total 586,000 acres, down 22 percent.

Austrian winter pea planted acreage intentions are estimated at 20,000 acres, down 36 percent.

Sugarbeet planted acreage for 2011 is estimated at 1.2 million acres, up 1 percent from 2010.

Canola growers intend to plant an estimated 1.6 million acres, up 11 percent from 2010.

Soybean growers intended to plant an estimated 76.6 million acres, down 1 percent. If realized, the United States planted area will be the third largest on record.

Crop summary: Area planted, Oregon and United States, 2009-2011

Crop	Oregon				United States			
	Area planted ¹			2011/2010	Area planted ¹			2011/2010
